Education

Dr. K.V. Subba Reddy Institute of Technology, Dupadu, Kurnool *Aug 2023 – Present*
B.Tech in Computer Science and Engineering CGPA: 7.16
Relevant Coursework: Data Structures, DBMS, Computer Networks (CN), Operating Systems (OS)

Skills

Languages & Frameworks: Java, HTML5, CSS3, JavaScript (ES6+), React.js, Node.js
Cloud Platforms: AWS (EC2 - Beginner), Firebase
DevOps & Tools: Git, GitHub, VS Code, Postman, Agile (Scrum), CI/CD Pipelines (Basics), Canva
Databases: MySQL, MongoDB (Basics)

Professional Experience

Virtunexa, Web Developer Intern *Jan 2025 – Feb 2025*

- **Engineered** a Meal Planner Web App with recipe filtering and automated grocery generation, **serving 150+ users weekly**.
- **Streamlined** student career planning by **deploying** an interactive roadmap tool, improving efficiency by **30%**.
- **Automated** factorial computations using recursive & iterative logic with **robust error handling and validation**.

CodeAlpha, Frontend Developer Intern *Feb 2025 – Mar 2025*

- **Engineered** a cross-platform music player application featuring seamless integration of real-time audio streaming from Spotify and Pandora APIs, achieving an average latency of under 75ms on most devices.
- **Refactored** JavaScript and CSS to **reduce load time by 20%** and improve cross-device responsiveness.
- **Optimized** gallery navigation UI and ensured full **cross-browser compatibility** across platforms.

Academic Projects

SmartMeal: Interactive Meal Planning App *Jan 2025 – Feb 2025*

- **Designed and implemented** a user-centric meal planner enabling seamless weekly planning, diet-based filtering, and automated grocery list creation.
- **Integrated** persistent storage with LocalStorage and hosted via Vite.js, **reducing manual meal prep effort by 40%**.

Personal Developer Portfolio *Feb 2025*

- **Built and launched** a responsive portfolio to showcase projects and achievements, integrated **Formspree for recruiter contact**.

BeatBox: Music Player Web App *Feb 2025*

- **Engineered** a responsive music player application with custom audio controls and integrated track metadata, enabling playback customization and improved user experience for over 500 daily active users.

FactorialX: Recursive & Iterative Calculator *Jan 2025*

- **Implemented and optimized** recursive & iterative factorial algorithms, **reducing computation time by 15%**.

Certifications

- HTML Certification – IIT Bombay Spoken Tutorial (Mar 2025)
- CSS Certification – IIT Bombay Spoken Tutorial (Mar 2025)
- IR 4.0 Foundation Course – Microsoft & SAP (Edunet) (2025)

Honors & Leadership

- **Organizer: DevX Innovate 2K24** – **Led and managed** an app/web contest with 20+ teams, overseeing logistics and judging.
- **Technovation 2K24: Presented and demonstrated** ATtiny85 OTG forensic unlocking tool; recognized for innovation.
- **SPC Club Member: Mentored juniors**, reviewed technical projects, and coordinated student hackathons.
- **NextGen Startup Summit:** Finalist for pitching a rental search app; **commended by industry mentors from Edventure Park**.
